

Manufacturing ^[1]

Novartis Ringaskiddy

Novartis Ringaskiddy is home to both the manufacturing site, Novartis Ringaskiddy Limited (NRL) and Novartis International Pharmaceutical Ltd, Branch Ireland (NIPBI) which is comprised of the International Services Laboratory, the External Supply Organisation, Supply Chain and administrative functions.

Employing approximately 600 people across the Ringaskiddy campus both NRL and NIPBI are important members of the Novartis global network.

Operational since 1994, NRL is a manufacturer of intermediates and active pharmaceutical ingredients. The €850m facility includes manufacturing operations, quality control laboratories, warehouse, technical, IT and engineering services.

The facility specialises in high quality small to medium scale synthesis with particular expertise in peptide synthesis and very large scale high pressure liquid chromatography.

IDA Ireland published a short video on **Novartis Ringaskiddy**. To access the video please click [here](#) ^[2].
