

Learning at Novartis ^[1]

Our executive programs are developed in close collaboration with the world's leading business minds - professors and learning consultants from world-class institutions such as Harvard Business School, Stanford, IMD, Tuck, Babson and others.

Proven learning methods encourage participants to discuss their own real business issues, exchange ideas and solve problems. Custom-design corporate programs bring networks, insights and teamwork essential for success.

The programs take place in a learning environment that stimulates collaboration and sharing of ideas and builds strong personal and professional bonds among Novartis Leaders.

[Video of Novartis CEO Joe Jimenez: The best advice I ever got](#)

At Novartis, we want to build an exciting workplace where people can realize their professional ambitions. We believe we can do this by creating a motivating environment in which creativity and effectiveness are encouraged and leading technologies are applied.
