[Speak Your Migraine](#)

Speak Your Migraine

Speak Your Migraine has been created to give everyone with migraine a voice, helping you share your stories and paint a real picture of the impact of migraine in your life.

This website provides the tools and resources for better ways to talk about migraine with friends, family and colleagues. Because with real understanding, you can start to receive the care and support you need.

AMD

This website is designed to provide you with information about Age-related Macular Degeneration (commonly referred to as AMD). It describes what AMD is, as well as how it affects your vision and how to identify the signs and symptoms of the condition. It will also tell you what you should do if you have any concerns, or if you want more detailed information about AMD.

Living Like You: Not Your Average MS Website

Living Like You is here to empower and support those living with and impacted by multiple sclerosis. And it's driven by the community. Our team of bloggers are real people with MS, facing similar triumphs and challenges and finding unique ways to live fulfilling lives that can inspire a movement. The mantra? These people may have MS, but MS doesn't have them.
